

# Water Intelli-Buoy

Team 2

**isep**

Instituto Superior de  
**Engenharia** do Porto

# Functional app. (+ IOT system)

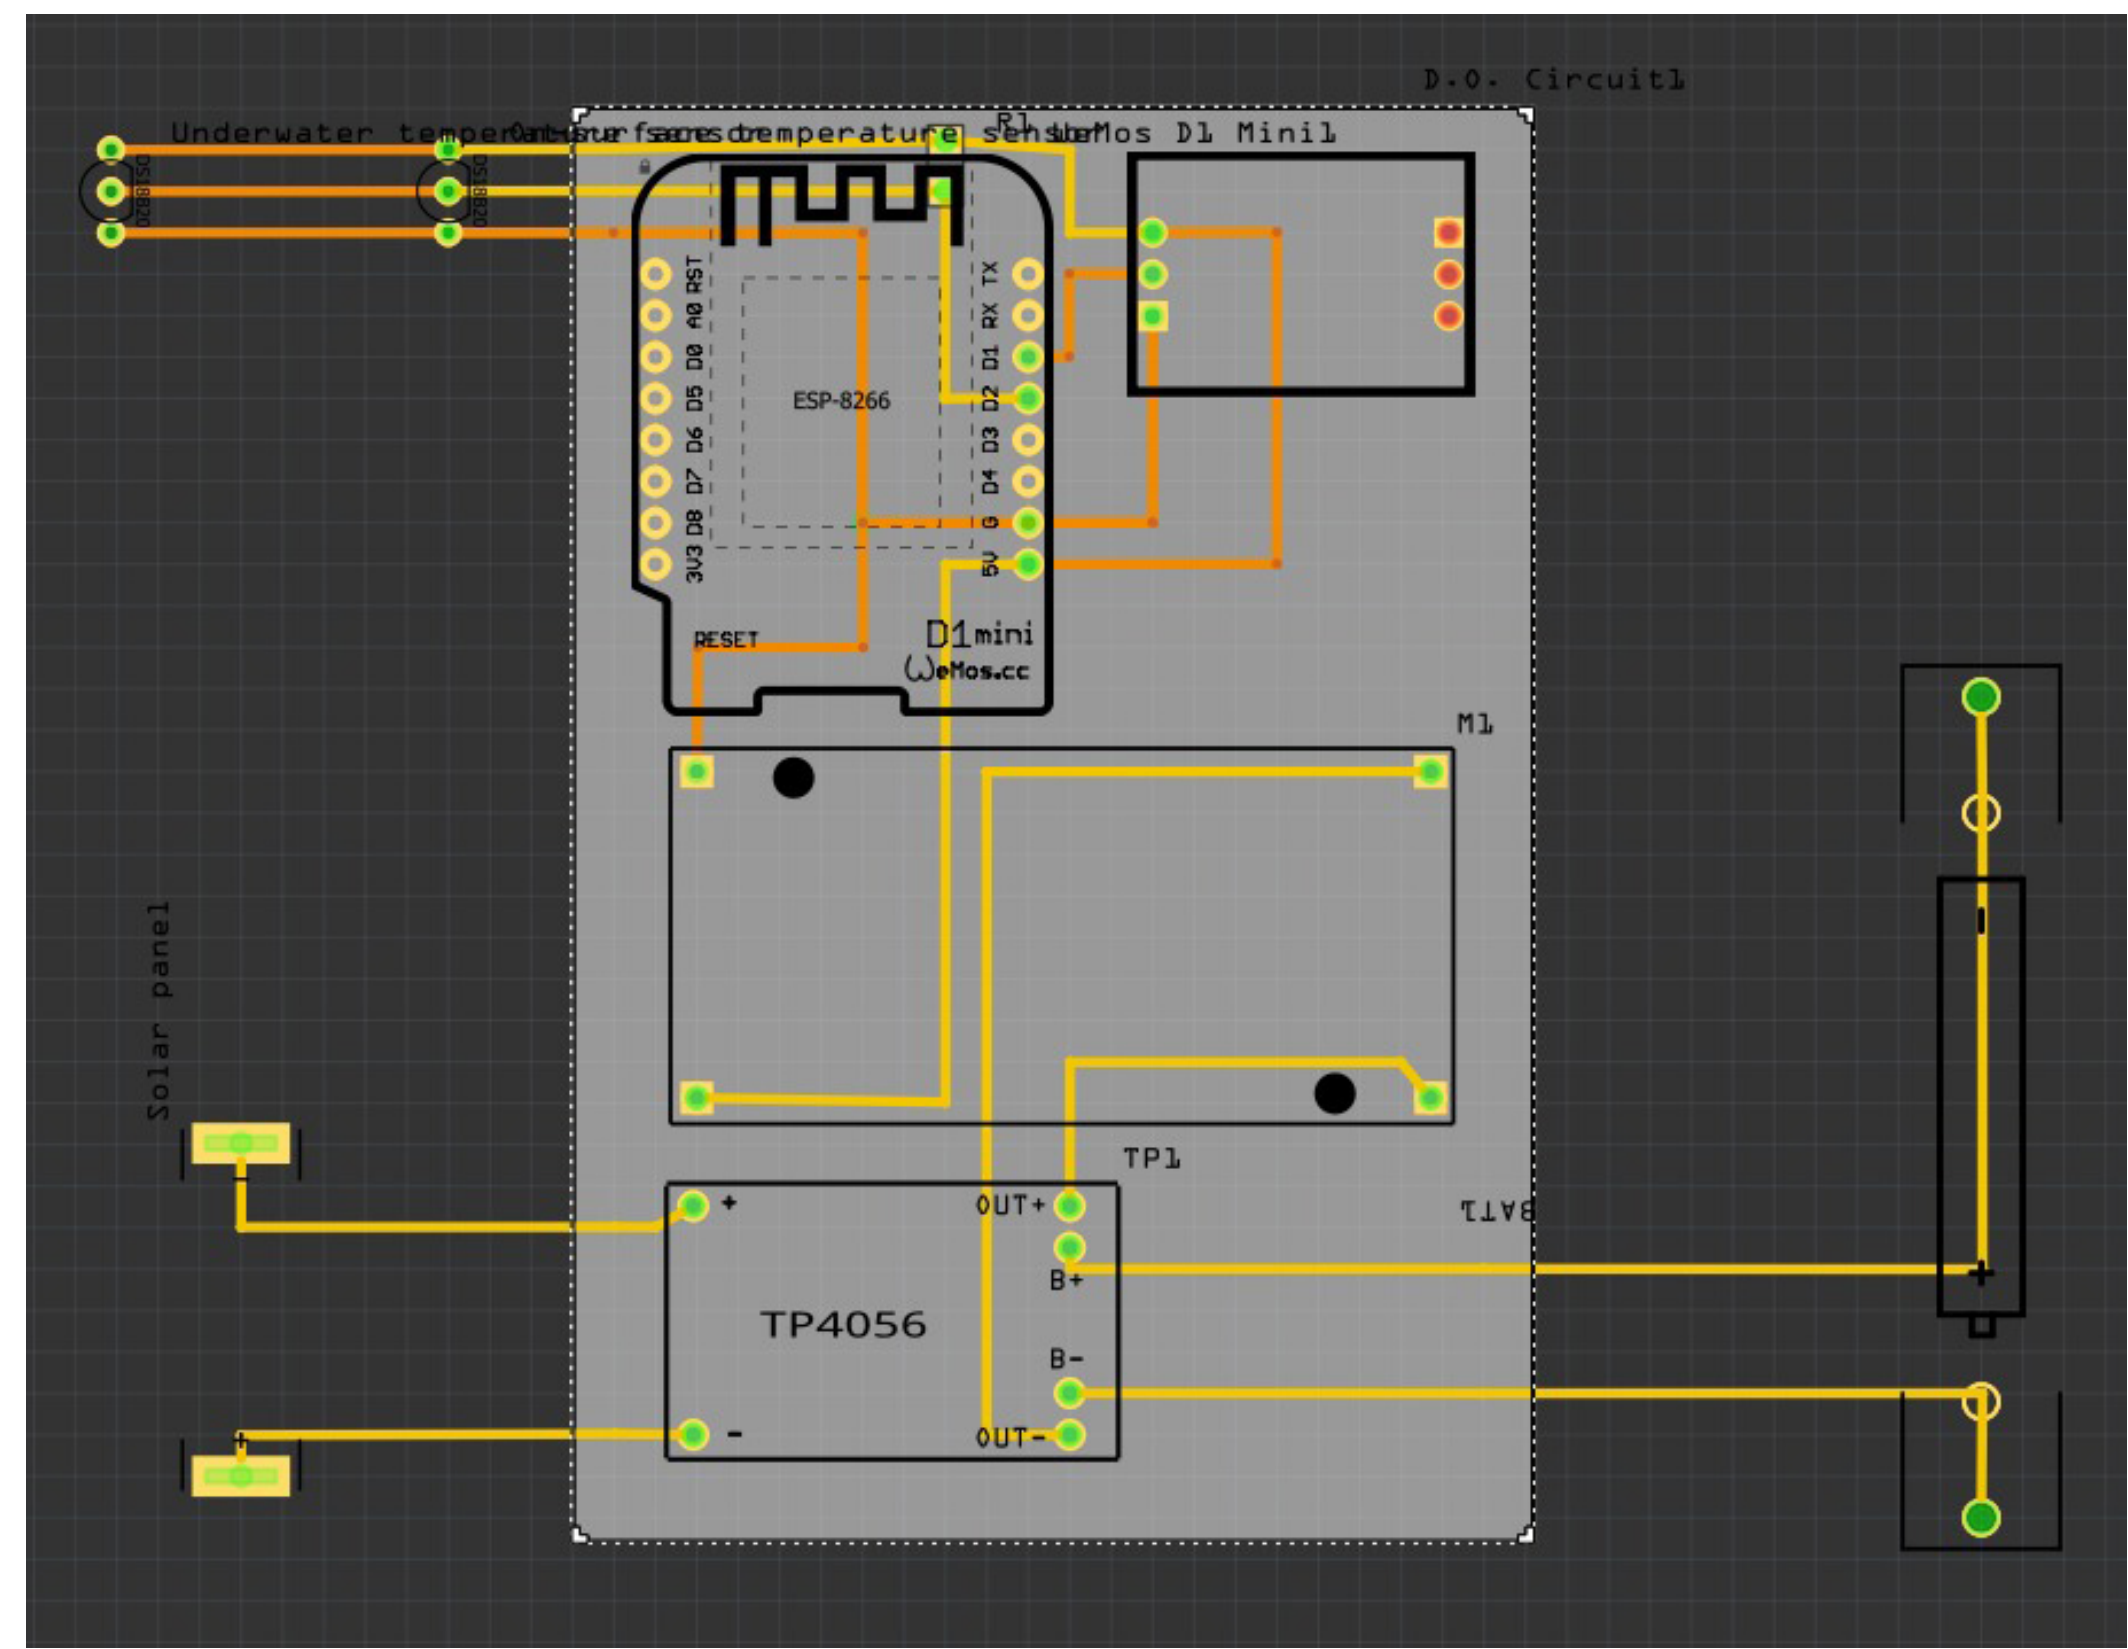

---

- Use of EasyIoT app

(<https://iot-playground.com/blog/2-uncategorised/75-easyiot-cloud-android-app>)t

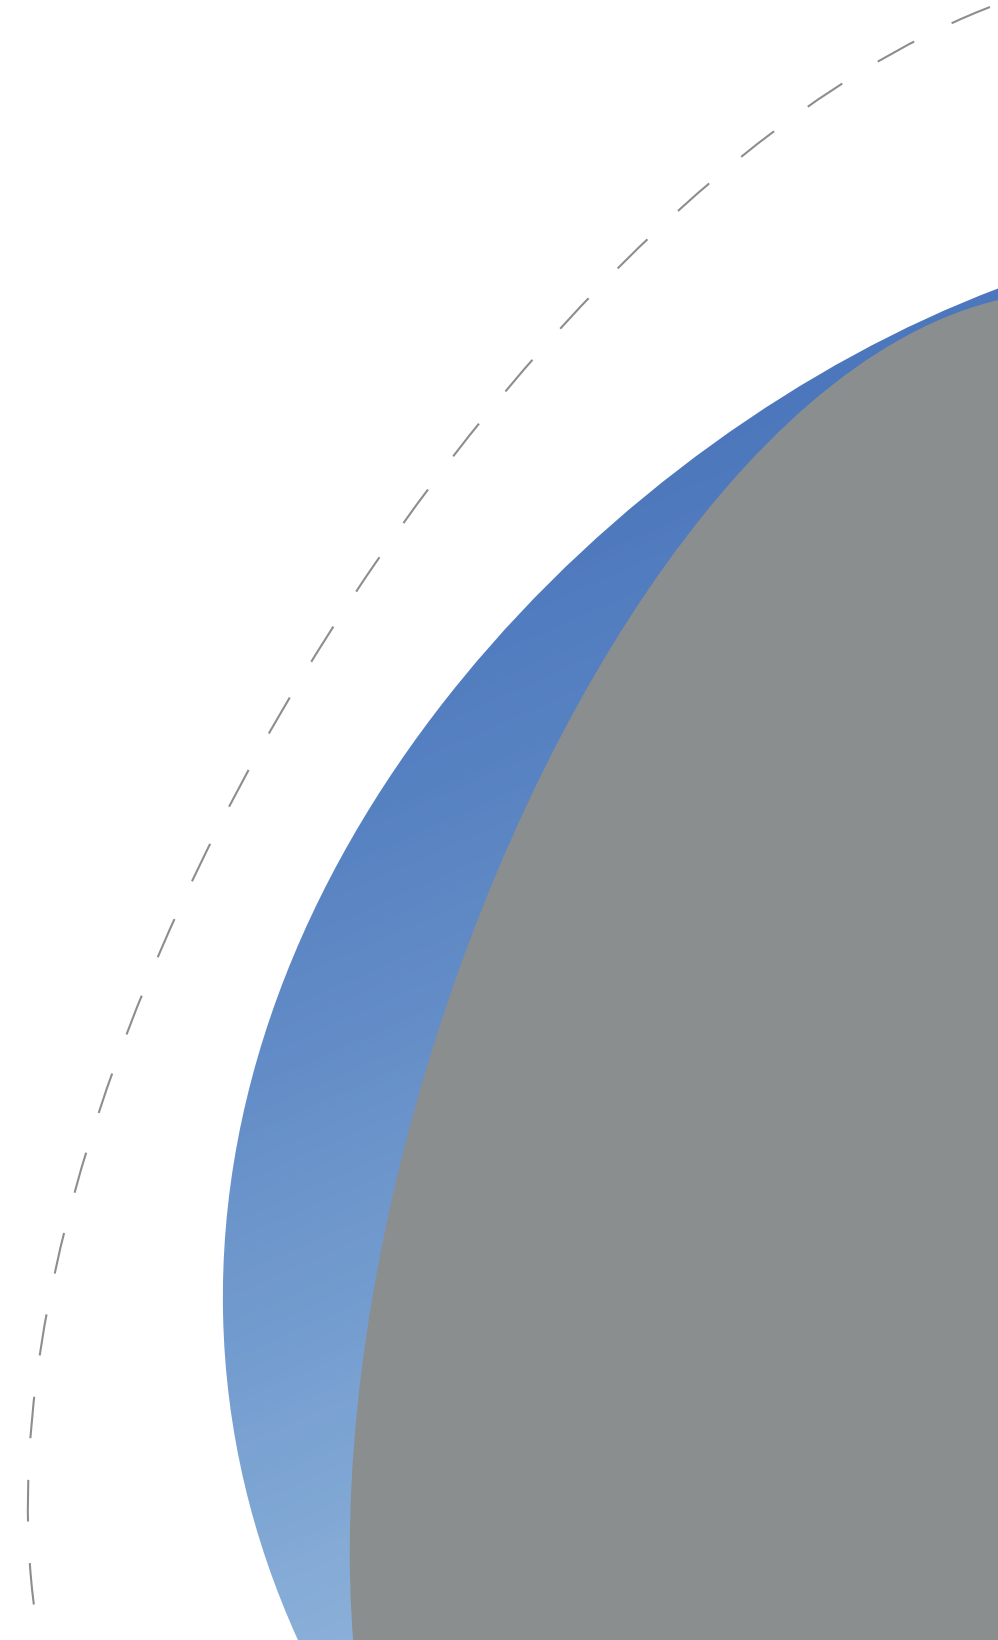

# PCB (drawings)

# 3D Printed model

---

- Further adjustments were made due to:
  - Bigger component than listed on web
  - Limitations of the 3D printer (size)
- Printing planned for next week

# Next week

---

- Testing:
  - Sensors
  - Codes (for the sensors)
- Printing 3D model
- Further development of esthetical app.

# Questions

---

– PCB: next step?
